This product commercialized through NRDC, New Delhi during the year 2006 to M/s. Kamat Chlorotech, 256/257 KIADB, Malur, Kolar District and Ms/ Shri Durga Biotech, Kodathi village, Bangalore 560035. Patent was granted by NRDC, New Delhi during the year 2017 with PATENT NO. 289910 / 24.11.2017.

**Impact:** The sericulturists have realised its importance in controlling silkworm diseases and crop stability for harvesting higher yields in cocoon crops. During 2013, more than 2.00 lakh litres of Decol was produced for the sake of stakeholders in using as a general disinfectant in the rearing units. There was an increase of cocoon yield about 5 kg/100 Dfls at the farmer's level.
